Applied Chiropractic Nutrition

Combine your adjustment with applied nutrition and take your practice to a whole new level.

"How many times have you delivered the perfect adjustment just to find that the same subluxation patterns come back over and over again? In school we were taught all about the importance of the viscero-somatic reflex but not really how to address it. In this seminar you will learn a systematic approach to the viscero-somatic reflex. How to identify it and how to fix it!"

Jay Robbins, DC, DACBN, CCN

There is so much more to health than delivering the perfect adjustment. D.D. Palmer knew that, and you are going to learn how to do it all.

There is a whole world of patients and referrals looking for the doctor who puts chiropractic together with the correct nutritional support.

Learn Nutritional Support For:
