AGENDA

Applied Kinesiology- Accurate Muscle Testing

My vision of holistic care and chiropractic care specifically is to, whenever possible, maximize human potential and spiritual expression using methods that work with the basic systems of the body in ways that are natural and intuitive.

Dr. John Bandy

Education: Graduate of Texas Chiropractic College, 1976
Charter Diplomate of the International College of Applied Kinesiology

- Chairman of the Certified Teachers of the ICAK for 10 years
- Published articles on subjects ranging from the conservative treatment of lumbar and cervical disc injuries and the rehabilitation of muscle injuries to diet and nutritional supplementation for athletes
- Taught Applied Kinesiology world wide for 38 years

Private practice continually since 1976

An AK Approach to Motion Segment Dysfunction

Dr. Richard Belli

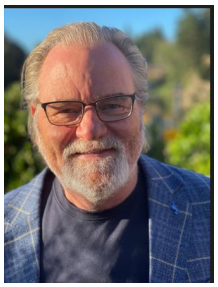

Dr. Richard Belli graduated from Life Chiropractic College West in 1984. Dr. Belli immediately became fascinated with Applied Kinesiology (AK) which led to enthusiastic study of AK and the great practitioners of the time. In 1994 Dr. Belli earned a diplomate degree in Functional Neurology and later a fellowship in Nutrition and Neurochemistry as well as certification in Functional Medicine.

A Potpourri of Essential Connective Tissue Challenge Procedures and Corrections

Dr. Gangemi will discuss several forgotten, updated, and new techniques used to evaluate and correct common musculoskeletal and fascial problems. Whether you treat professional athletes or the common low back pain, you'll learn new procedures to help your patients heal faster and move better!

Dr. Stephen Gangemi

Dr. Gangemi is a chiropractic physician and clinical nutritionist with a passion for natural health care specifically in the fields of nutrition and manual therapies. He has over 25 years of clinical experience as a practitioner of complementary sports medicine and holistic therapies for patients dealing with a variety of ailments such as hormonal imbalances, digestive disturbances, immune dysfunction, and musculoskeletal problems. His practice focuses on not just treating his patient's health concerns, but helping them move better and live healthier lives.

Treat the Total Load for Optimal Results

What to cover to be your patients primary care physician. How to do a biochemical, nutritional, toxicological exam using AK in approximately 10 minutes.

Dr. Michael Lebowitz

Dr. Michael Lebowitz is a prolific writer, having authored 4 books, over 60 articles, and a free monthly newsletter for over 19 years (you can subscribe and read back issues on this site). He attracts patients from around the globe and treats many professional athletes (MLB, NHL, NFL, cyclists, runners, boxers, ballet, etc.), entertainers, as well as many physicians, and everyone else. When treating and correcting dysbiosis (fungus, parasites, bacteria, virus, etc.), food sensitivities, toxic metals and chemicals, nutrient

deficiencies, hormone imbalances, structural imbalances, and more, he has found that a majority of chronic and acute symptoms often resolve and the patient is restored to a better state of health. He presently practices in Pukalani on Maui with his son Noah.

Dr. Noah Lebowitz

Dr. Noah Lebowitz has been teaching with his father and on his own the last 6 years. He has a practice on Maui, Hawaii and specializes in patients with chronic illness. He has also treated many professional athletes including NHL, MLB, PGA, etc. players. He routinely has patients flying in from out of state, and also is flown in to make house calls across the USA and other countries.

Injury Recovery OR Improving Performance? The AK Paradygm meets the demands of Elite Athletes!

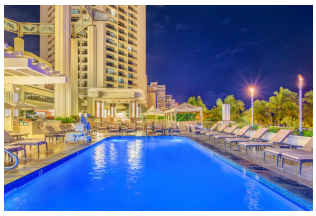

Dr. Evan Mladenoff

Doctor of Chiropractic Canadian Memorial Chiropractic College June 1978; Diplomate of International Board of Applied Kinesiology since 1981; Fellow of Acupuncture Society of America 1981; Team Doctor Canadian National Canoe Team at World ICF Championships 1978 and 1979.
