SAVE THE DATE! LIFE IS COMING TO SAN DIEGO NOVEMBER 9-10, 2012

PLUG INTO LIFE

RECHARGE YOUR SOUL PURPOSE

LIFE is coming to your city and we want to share a selection of energy-filled seminars with you – each based on your soul purpose and geared to **recharge your passion, repower your practice and reward your patients.** First, Dr. Eric Plasker discusses the **"100 Year Lifestyle"** including vital information regarding patient health and lifestyle trends as they relate to aging baby-boomers and future generations. Then, get ready to grow your practice as Dr. Jason Deitch relays his easy-to-follow, 7-day program aimed at improving your communication with your patients and using **Facebook** as a marketing tool to position yourself as **The Health Expert** in your community. Finally, prepare to reap the rewards as Garrett Gunderson helps you manage your assets and explains how to **create wealth** as you strive to fulfill your soul purpose in life. Friday evening is our **Patient Appreciation Night** and we invite you, your patients and friends to join **Dr. Guy Riekeman** for the second in this remarkable series of presentations entitled **"Power of One."** If you enjoyed part one, you'll love part two. But if you've never heard Dr. Riekeman speak, you are *really* in for a treat! In part two, entitled **It's Your Life – Live With Inspiration**, Dr. Riekeman shares ideas revealing how we can empower ourselves to live with inspiration by recognizing and vitalizing our soul purpose. Saturday, we invite you to **share your passion** and help ensure a bright future for the chiropractic profession with a prospective student of your choice as we bring **Life University** to San Diego. Students will have the opportunity to talk with faculty and enrollment staff and even meet President Guy Riekeman. It's an opportunity that has the potential not only to empower the life of someone you know, but also to fuel the profession for years to come.
